CALIFORNIA'S NEW GEM.

For some years California has

enjoyed an enviable reputation as

a land of beautiful minerals. She

has now added another jewel to

her crown. A gem of great beau-

ty was recently discovered in the

southern part of the Mount Diablo

range, near the San Benito-Fresno

county line, by two prospectors.

The stone was offered to Shreve

and Company in San Francisco as

sapphire. cursory examination,

however, revealed the fact that the

mineral did not possess the usual

qualities of sapphire, and it was

therefore referred to the geological

department at the University of

California. Conclusions based on

a scientific examination appear in

a bulletin (No. 9, Vol. V. in the

Geological Series) just published

by Professor George D. Louder-

back. The new gem is one of

great beauty; it is clear, transpa-

rent stone of an attractive blue color,

that in the deeper color portions

shows a distinct violet tint. Com-

pared with the long known stand-

ard blue gem, the sapphire, may be

said that it rivals the latter in color

and excels it in brilliancy, though it

is not so hard. It is, however,

harder than the opal and the

moonstone and about equal to the

chrysolite. The color, which is

its most attractive property, ap-

pears to be quite stable. The stone

may be heated to a bright red and

maintained at that temperature for

five minutes, but on cooling down

the color will appear absolutely un-

affected. The mineral does not

suffer by contact with any of the

ordinary acids, and will remain un-

injured after being washed with the

cleansing agencies likely to be used

on precious stones.

It is a fact worthy of note that

while other gem minerals for which

Those who have stomach trouble

no matter how slight, should give

every possible help to the diges-

digested with the least effort. This

may be done by taking something

that contains natural digestive

properties—something like Kodol

FRIDAY AUGUST 23, 1907

A HEALTHY SIGN

It is refreshing and encouraging to read almost daily of the conviction of high and wealthy personages of crimes which a few years ago were frequently committed almost with impunity.

Our great chief executive, President Roosevelt, has set a very wholesome example of enforcing the laws on rich and poor alike.

The often heard remark, "He is too rich, he'll never be convicted," can't be made any more in these United States with any degree of certainty. A moral wave, sadly needed for many years, is passing over the entire country and having the approval and active encouragement of the best citizens, is irresistible.

The most hopeful feature of this righteous reform movement is the punishment of so many of the officials in high and low places for standing in with violations of laws either for profit or power.

It is hoped that the determination to enforce all laws will permeate every township, town and city in this great commonwealth, so that spineless petty officials will be more afraid of the people than of the "push."

The best recommendation any community can put forth to attract desirable citizens as settlers, is a strict and impartial enforcement of law.

FAVOR GRAPE MEN

In order to foster the wine industry of the state and to aid both the manufacturer and growers, the Southern Pacific and Santa Fe railroads decided Monday to cut 20 per cent off the present rate on grape shipments within the state.

The yield of wine grapes this year will be exceedingly large, much larger than in former years, and as there is little wine on hand, the manufacture of wine this season will be the greatest in many years. The wineries report that there is a big demand this year for California wine in the east, and the movement to all points will be heavy.

Sonoma Driving Club

It is the intention of the Sonoma Driving Club to make extensive improvements on their track off First St. West. A new grand stand with a capacity of 600 people will be built and a new judges stand will also be constructed on the west side of the track instead of the east side as it is at present.

This will be a decided improvement as the spectators will then be able to see the races to better advantage and be protected from the sun's rays during the racing events.

Schmitz Quits

Former Mayor Eugene E. Schmitz of San Francisco, has tendered his resignation as a member of the Native Sons of the Golden West, the pathetic order he has disgraced. It is also reported that the resignation will not be accepted but that instead he will have to stand trial and if found unworthy be expelled.

Ben Cook Estate

Letters of administration were issued Saturday to Mrs. Mary Poley, in the estate of B. L. Cook, deceased. Attorney William F. Cowan is representing Mrs. Poley.

DIED SUDDENLY

Wednesday morning at four o'clock John Wallace, who lived in the Wagner house on Broadway, complained of feeling badly and sent a friend for Paul Robin, his next door neighbor, saying he wanted to make his will. Before Mr. Robin arrived he was dead.

Mr. Wallace was about town as usual the evening before when he remarked he was feeling unusually well. He was a native of San Francisco and for many years was a drummer for Murphy, Grant & Co., of that city. He came to Sonoma some weeks ago in hopes of benefiting his health, but the dread destroyer, consumption, carried him off just as he was making preparations for enjoying himself in old Sonoma.

Deceased was unmarried. Relatives came up from San Francisco Wednesday evening and took the remains to the metropolis where interment took place yesterday.

Races! Races! Races!

Owing to the demand of owners of fast horses for a race meet in Sonoma, the Driving Club have reconsidered their plans and will give a race meet at the track here on September 9, next.

Twenty fleet steeds have been entered already in the various classes and a fine program of events is promised. Several others have agreed to put in their horses and probably as good an event as any of the kind ever given here will take place on Admission Day.

Plenty of Large Apples

The continued cool and foggy weather has proven a boon to the fruit growers of Sonoma county, says the Republican. This is particularly true of the apple crop. The trees are heavily laden this season, and because the weather has been pleasant, the fruit has made wonderful development. Many of the farmers are compelled to use props to save their trees and the fruit is going to be of a superior quality. Drying has already commenced in many of the orchards and the fruit is commanding unusually good prices.

Very Pleasant Meeting

The meeting of the Sonoma Valley Woman's Club in the club parlors last Friday afternoon was largely attended by the members and their friends.

The attractive feature of the meeting was the address of Co. Superintendent DeWitt Montgomery. His subject was the N. E. A. Meeting in Los Angeles. Mr. Montgomery handled his subject in a masterful way and his hearers greatly enjoyed his remarks. A number of those present also made brief remarks.

Refreshments were served at the conclusion of the program.

Will Sell Lots

Deputy Co. Surveyor, Thos. B. McNamara, was in Sonoma this week laying off the six-acre field adjoining the City Hotel, into town lots, putting streets through, etc. The property is very desirably located and as six of the lots have been spoken for already, the remainder will no doubt find a ready sale. Mr. Loustalet, the owner, will sell the lots for cash or on easy payments to suit the purchaser. It is expected that the lots will be put upon the market as soon as the plot of the subdivision shall have been completed and filed in the proper offices.

For further particulars inquire at the Expositor office.

"The Stockbrokers"

The highly entertaining 3 act drama, "The Stockbrokers" will be played in Chauvet Hall, Glen Elder, on Saturday evening August 24, by a fine cast assisted by local talent. Admission 25 cents.

Saturday Sale

The Ladies Aid Society of the M. E. Church will hold a sale of bread, pies, cakes, etc., on the second Saturday of each month in the M. E. Church Sunday school room.

Save money by getting your S. F. paper with the Expositor. The Chronicle and Expositor only 85c per year.

Dr. W. B. Hays Here

Dr. W. B. Hays, a physician and surgeon of San Francisco, is the latest addition to the professional ranks of Sonoma.

Dr. Hays is a graduate of the Medical College of the State University and has had experience as house physician and resident physician at the City and County Hospital. He was also in charge of the Maternity Hospital in the metropolis which position he resigned to come to Sonoma. For the present he will be associated with Dr. A. M. Thomson, in the practice of his profession.

Labor Day Celebration

The Union Labor forces of Santa Rosa will give a monster celebration in that city on Labor Day, the first Monday in September, 1907. Everybody invited to the big doings.

Had Delightful Time

One of the most successful parties ever given by the Sonoma Social Club took place in Weyl's Hall last Saturday evening. Mrs. Paul furnished the music.

LARGEST IN THE WORLD

The Oliver Chilled Plow Works, of South Bend, Ind., the largest factory of its kind in the world, has erected on their big warehouse in that city, a huge electric sign (see above cut) which is also the largest in the world and is attracting considerable attention.

There is a reason why the Oliver Chilled Plow Works is the largest in the world. Ask Haven, the hardware man, agent for this locality.

WORTHY CAUSE

The Woman's Improvement Club of Glen Ellen, is preparing for a ball to be held at the Mervyn Hall on the evening of August 30th. The money raised by this dance is to go towards finishing the road through Dr. O'Connell's place. This road, when finished, will be a vast improvement over the one now going over the big hill out of Glen Ellen. We hope for a big crowd on August 30th and will endeavor to give every one a good time. General admission twenty-five cents. Supper also twenty-five cents.

WARNING

If you have kidney and bladder trouble and do not use Foley's Kidney Cure, you will have only yourself to blame for results, as it positively cures all forms of kidney and bladder diseases.

Runaway Team

A double team, drawing a wagon load of hay, became frightened at a passing automobile Tuesday near Vineburg and ran away. The reach under the wagon broke, the hay was scattered and the driver thrown from his seat sustaining a sprained ankle. The team was stopped before any other damage was done.

Taylor is Mayor

The California State Supreme Court landed down the decision Monday in the famous case of ex-mayor E. E. Schmitz now confined in the county jail awaiting sentence on a felony charge. The court unanimously says that the present mayor, E. R. Taylor is the legal and only mayor of San Francisco and that convict E. E. Schmitz is not.

State Assessment

The State Board of Equalization
have completed their work for
this year and announce that the
total assessed value of taxable prop-
erty in California is \$1,879,642,
000. This is the greatest by
\$285,000,997 than it was last year.
It is believed that the state tax
rate will be less this year on account
of the increased assessment. The
state rate will probably be \$4.45.

Four Sisters Sunk

The gasoline schooner Four Sis-
ters sank at Bay Point Tuesday and
those on board managed to save
themselves by swimming ashore.
The Four Sisters was coming down
the river with a cargo of wheat
from Rio Vista for the Golden
Eagle Milling Company of Petal-
uma when she sank. Captain D.
Larsen, who was in command of the
vessel and the crew of four, just
had time to swim ashore before the
vessel went down. The Four Sis-
ters is a hundred-ton gasoline
schooner and is owned by W. D.
Harford and D. Larsen.

The Four Sisters was owned by
the late Capt. J. P. Hauto of Shell-
ville and was only recently sold by
Mrs. Hauto to the present owners.
The cargo, which was for Golden
Eagle Mills, was a total loss.

THE FIRST LETTER A Woman Writes.

The first letter that a sick woman should write or have some one write for her is to Dr. Pierce, of Buffalo, N. Y., asking him if "FAVORITE PRESCRIPTION" is suitable for her case, and he will gladly tell her so if he thinks it is. He may have to ask some questions before he can be sure just what the trouble is. If you are suffering from uterine disease, the symptoms of which are headache, backache, sideache, pain in various parts of the body, especially in the pelvic region, bearing-down, inflammation, ulceration, then Dr. Pierce will advise you to use his "FAVORITE PRESCRIPTION" for he has had a wonderful experience in the use of this remedy. It is not a patent medicine, but it is a marvelous prescription that became his "favorite" when he was engaged in private practice forty years ago and found that it cured more than ninety-eight out of every hundred of all such cases that came under his care.

The doctor found scores and hundreds of women who were being improperly treated because their troubles were not understood, and he determined to place this remedy that he had used so successfully within reach of the multitudes who were in such sore need of it. He made it efficient, agreeable to taste,

and, best of all, safe for any woman, old or young, to use. It is neither a stimulant nor a narcotic, just a vegetable tonic, and invigorating nerve tonic, composed of native roots of remarkable medicinal value in the treatment of this class of diseases, and its record of more than half a million of cures entitles it to full confidence.

The one medicine for the cure of woman's peculiar weaknesses and ailments, the ingredients of which are printed and placed upon every bottle leaving the great Laboratory in Buffalo, N. Y., where it is made, is called Dr. Pierce's Favorite Prescription.

It Stands Alone not only in respect to its ingredients being known, but also as the only specific advertised remedy for women's diseases which absolutely contains no alcohol.

It Stands Alone as the one medicine for women, the makers of which take their patients fully into their confidence and tell them exactly what they are taking. This Dr. Pierce can afford to do, because his "FAVORITE PRESCRIPTION" is made of such ingredients and after a working formula that has thousands of cures to its credit, placing its merits above criticism.

"I suffered with ovarian trouble for many months until I became quite discouraged, as there was scarcely a day when I was not in pain and my health was simply a wreck," writes Miss Olive Hester, of Syracuse, N. Y. "I read one of your advertisements and decided that I would try Dr. Pierce's Favorite Prescription, as it seemed to have helped so many who were suffering as I did. I found relief after using two bottles, and a cure in three months from what I considered was incurable. I am very grateful and so pleased with my recovery. Life looks different to me now, and I shall always give the credit where it belongs to Dr. Pierce's Favorite Prescription."

Send 31 one-cent stamps to cover cost of mailing and get a copy of the "Common Sense Medical Advisor," over 1000 pages. Address Dr. R. V. Pierce, Buffalo, N. Y. These ORIGINAL Little Liver Pills first put up by Dr. R. V. Pierce over 40 years ago. They have been much imitated but never equaled. They're made of purely vegetable, concentrated and refined medicinal roots and plants. They speedily relieve and cure all cases of Biliousness, Indigestion, Liver and Bowels and their attendant distressful ailments. One or two a laxative, three or four a cathartic.

Cormorants.
Cormorants are far the largest and most striking in appearance of the common English sea fowl. A male cormorant is a yard long and very strong and heavy, and though more quaint than beautiful, whether flying, diving or sitting on the rocks or buoy, it is a far more interesting creature than the sea gull, a wonderful instance of adaptation of form to special needs and of permanence of type enduring from remote ages, for the fossil cormorant hardly differs from those which are now fishing from the cliffs in which their petrified ancestors are imbedded. Our common "great black cormorant" is not only the most representative type of his family, but a link with the inhabitants of the shallow seas of both the old and new worlds. He is found throughout Europe, in north Africa, Egypt and the greater part of Asia, in eastern North America and, a little changed by distance, in New Zealand and Australia. Lastly, he is the only bird, except the hawk and falcon, which is trained to assist man in the capture of living prey, and in this vocation he is of all birds, by sense, memory and affection, incomparably the best.—London Spectator.

He Must Have Been Asleep.
Mrs. Hickey was much concerned about her youngest son. He had developed a peculiarity of which he had previously shown no trace—that of walking in his sleep. In great distress of mind she told her husband, "Samuel," she said, "do you know that Johnny is a somnambulist?" "A what?"

"A somnambulist. He walks in his sleep." "When did he begin to do that?" "I never noticed it until last night. After he had gone to bed and was sound asleep he got up, dressed himself, went out to the woodshed and brought in an armful of kindling." "He did that in his sleep?" "He did. I watched him. He didn't know a thing about it this morning either. How can you explain such a thing?"

"Humph!" ejaculated Mr. Hickey. "I can't. But if he had gone out while he was wide awake, Lucinda, and done such a thing as that voluntarily it would have been a good deal harder to explain."—Youth's Companion.

The Gruff Historian.
Neither at the Saturday Review dinners nor in the companies in which I have met Freeman at Wells did he show himself a genial companion. His taste for snuffing out a candle on every possible opportunity altogether exceeded that even of Bob Lowe. Lord Sherbrooke, himself. Freeman was more agreeable to encounter in the open air than at a dinner table. In the Mendip district whenever I heard a horse's hoofs pelling along some piece of turf by the roadside and some voice singing the refrain of some old cavalier song I knew that if I looked round I should see the historian pounding along on a sturdy nag which, according to tradition, in a burst of generosity he once offered to Carlyle as a gift.—Chambers' Journal.

Cut Out by Water.
"The popular idea that earthquakes and volcanic explosions played a part in forming the Grand Canyon of the Colorado river," says Professor A. H. Crook, "is a delusion. The canyon was cut out entirely by the water of the river, and the most effective tool employed was the quartz sand brought down from the sources of the river in the mountains. This sand is harder than any of the constituents of the rock strata in which the canyon has been carved. Hurled by the swift water against the sides and the bed of the stream, it cuts the rock as easily as a file cuts iron."

"Temperance" Intemperance.
Always mitigate your tendency to excessive tea or excessive coffee. There is a very bad kind of drunkenness of both, whose symptoms are dyspepsia, unrest and visions. Excess is here as a possibility, just as it is a possibility with alcohol. Alcoholic excess leads to the police court now and then. Excess as to tea and coffee has no aftermath of legal or moral respectability, but it is almost certainly a direct prelude to a nervous and disastrous health.—Dr. Dabbs in C. B. Fry's Magazine.

Followed Directions Strictly.
"A young widow was consulting a tombstone maker about her husband's tomb," said a clergyman. "She ended the discussion with: 'And I want it to say, "To My Husband," in an appropriate place, Mr. Slab.' "All right, ma'am. Slab answered. "And the tombstone when it was put up said: "To My Husband. In an Appropriate Place."

No Use.
Guest—These eggs are rather flavorless. Pretty Waitress—Teacup? Guest—These eggs—they're not quite. Pretty Waitress—(to another pretty waitress who is passing)—Dick was in last night. He asked after you. (To guest) Did you say teacup? Guest (gloomily)—Coffee.—New Orleans Times-Democrat.

In Doubt.
"Her husband left her a fortune on condition that she should not marry again, and you say she isn't satisfied?" "No. She can't make out whether it means jealousy or revenge."—Detroit Free Press.

He is great who can do what he wishes. He is wise who wishes to do what he can.—Lland.

A Lasting Impression.
"Well, Bertha, I hear you met Mr. Cooke yesterday. Did you like him?" "Do you know, dear, he made an impression upon me that nothing will obliterate."

"Really? How—what did he say?" "It wasn't what he said; it was what he did. He spilled a cup of tea over my new white silk dress."

Succeeded.
"She married him to reform him." "Did she succeed?" "Sure! He used to be a spendthrift and now he has nothing to spend."—Houston Post.

For the Future.
The secret of happiness is inward. People had good times when there were no fiction matches, when there were no illuminated streets, no steamboats or railroads, no sewing machines, no postage stamps, no comfortably heated homes, no telegraphs or trolleys. The elements of happiness are not in things, but in human nature itself. But the fairer conditions, the greater opportunities, which the marvelous modern inventions afford to the masses of our humanity should augment our joy and expand our hopes. The most obvious fact of human history is that of progress. The race is following a flying, a growing ideal. It is inspired and saved by hope. Every helpful invention, every improvement of sanitary conditions, every new ray of intellectual and spiritual illumination, every scientific achievement, every amelioration of physical suffering, every new avenue of enjoyment, every victory of righteousness, every faithful deed in lowly and lofty places, increases the splendor and the power of our vision of the future.—Leslie's Weekly.

Surf Riding is a Fine Sport.
At Waikiki, near Honolulu, is a famous bathing beach. Here winter and summer the surf comes on, better yet, the surf boards come dancing in on the long rollers, and men become amphibious. There is no sensation quite comparable to riding a surf board on a moving hillside of water, or, if you are clever enough to stand up on your board, it is taking this hillside on a single big slide. The beach runs far out before it shelves into deep water, and at high tide the breakers begin to mount almost half a mile from the shore line. You go out there with your surf board and wait for the wave, learn to catch it at the right moment, throw your board on the crest of the roller and just as the crest of the roller mounts and catches you. Then on this crest you sail in toward the shore, to slide down at last when the wave breaks, down the foaming incline into shallow water and churning foam. It is royal sport.—Travel Magazine.

Strenuous Chivalry.
It is complained that modern conditions are killing "the chivalry of the middle ages." But medieval tales and romances show what that chivalry really was. Wife beating was a common incident on the part of those knights and gentlemen whose gallantry was a mere convention. The Chevalier de la Tour-Landry in his book of comets tells his daughters tells them the story of a woman who used to cook, diet her husband in vain, he knocked after expostulating in vain, he knocked her down, then kicked her face and broke her nose. "And so," comments the good chevalier, "she was disgraced for life, and thus, through her ill behavior and bad temper, she had her nose spotted, which was a great misfortune to her." But not a word is said about the husband's brutality.

False Messiahs.
The defense of innocent persons claiming to be the Messiah has cost the Jews a great expense, both in treasure and human life. One of these, Coziba, who lived in the second century of our era, put himself at the head of the Jewish nation as their Messiah, and many of that people adhered to and defended him. The Romans made war upon Coziba and his followers, and, according to Jewish authorities, they lost somewhere between 500,000 and 600,000 men in his defense. The last of these impostors was Mordecai, a German, who first claimed to be of divine origin in the year 1332. When the authorities threatened to punish him as an impostor he fled, and his end is not known.

Musical Math Charms.
"Waiter!" called the customer in the restaurant where an orchestra was playing. "Yes, sir." "Kindly tell the leader of the orchestra to play something sad and low while I dine. I want to see if it won't have a softening influence on this steak!"—Tit-Bits.

"PURE BLOOD IS VITAL."
Not everyone realizes the vital necessity of keeping the blood pure at all times. Impure blood not only causes various derangements and inability to perform one's work well, but gives a ready welcome to all germs of disease with which it comes in contact. It is the rankest extravagance to allow the human blood to remain in an impure or impoverished condition, safest, purest and best blood purifier on the market to-day. It is a new remedy, a purely vegetable preparation composed of roots, barks and herbs, and contains no calomel or other injurious or metallic drug. 20¢ doses for \$1, with a written guarantee that your money will be refunded if you are not cured of all troubles caused directly or indirectly by bad blood. You can purchase this wonderful new remedy at Clowe's. John McNeil, sole agent for Sonoma County, Olin's Sulphur Springs, Sonoma.
